#### **2D SUBLIMATION COVERS**

Basically made from plastic, rubber and TPU; For each 2D cover, we have corresponding sublimatable insert sheets, metal sheets, aluminum sheets, sparkle alu sheets, Ji-case Alu Grade A. Different types of phone case will have different inserts.

#### **3D SUBLIMATION COVERS**

3D sublimation covers, generally made from polymer, further divided by the finish technique of glossy, frosted and paint. What's makes the 3D covers different from conventional 2D covers is the printing method and process. It requires a matchable 3D printing tool which is supposed to be used in a 3D vacuum machine. As a result, a 3D cover has a full size printing in the surface and the edge, corner and places which can not be printed with the normal 2D cover making process;

- Cases, made of PU, microfiber or jeans with a layer of sublimatable polyester surface;
- Apart from the upper listed items, we will also provide phone cover packing box, stickers, dummy models.
